442.03 HUMAN SERVICES

PROGRAM DESCRIPTION

This activity is responsible for the provision of direct services to local residents in the areas of Social Services, Human Services, and Senior Services. In addition, this Department is responsible for the administration and coordination of activities within these areas. The major objective of the program is to provide the community with short-term, individual, family, and social counseling, as well as to serve as an information and referral resource on the availability of social and human service programs. The Department also provides crisis intervention and assists local families in pursuing available State and Federal programs and services, as well as resources offered through regional non-profit organizations.

PROGRAM COMMENTARY

For the fourteenth consecutive year, a General Assistance account (\$14,500) is included in this budget (under Grants-Other). The Town began assuming more responsibility for funding community needs, after a reduction in funding from the United Way began to put an unsustainable strain on community organizations.
