- **** Percentages listed above include both General Fund and Special Revenue Funds and will not match the percentages on C. 3, which only include General Fund expenditures.

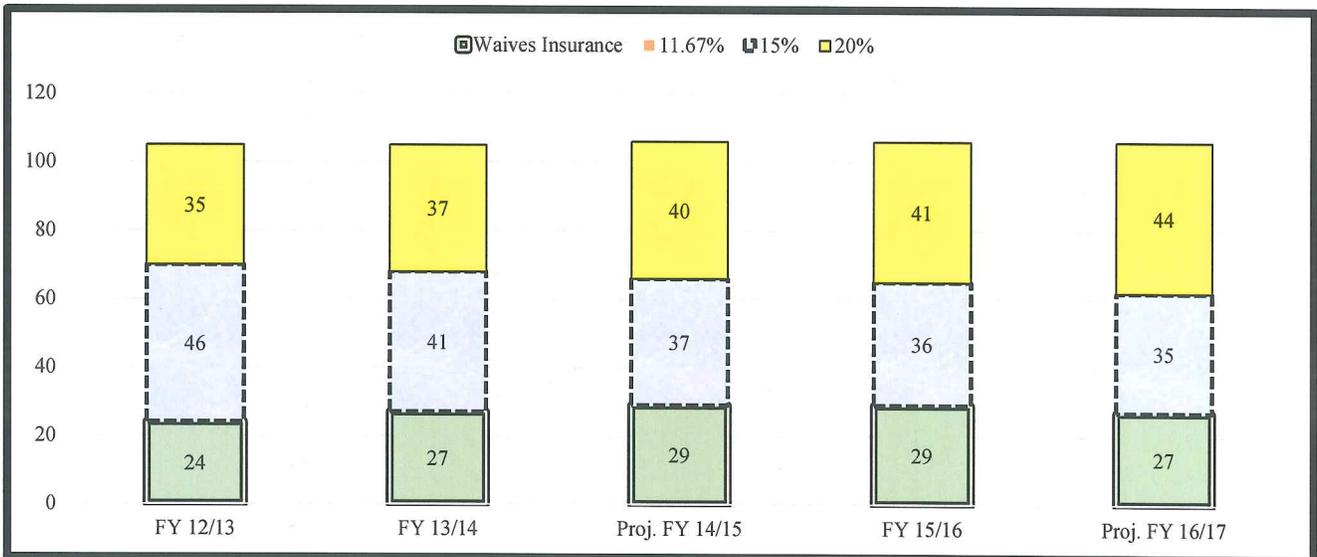

The increase in the Retirement Defined Benefit was based upon recommendation of the actuaries for estimated 2016 contributions as well as the Town reducing the expected interest assumption by .125% to a revised 7.25%. All current Town employees contribute 15% - 20% toward their healthcare coverage. All new hires for the Police, Dispatchers, Non-Organized and Public Works employees contribute 20% toward both health and dental care. As a result of the Town's and its consultants' proactive management efforts, life insurance, long-term disability, and dental have stabilized significantly. Also, in concert with our mutual consultant, the Town continues to team with the Avon Schools administration to mitigate and monitor escalating health care costs as well as Patient Protection and Affordable Care Act impacts. The Town's OPEB Contribution will continually increase by \$125,000 over the next several years, per recommendations from the Town's actuary.

Employees on Defined Contribution and Defined Benefit Plans from FY 2012/2032– FY 2016/2017

Healthcare Coverage - Effective 7/1/2011 all participating employees contribute either 15% or 20% to health insurance. Twenty seven employees currently waive medical coverage from the Town and are covered through spousal or other insurance.

Employee benefits have increased by \$447,841 or 6.13%. However, without the previously mentioned funding changes to several full-time positions on C. 3, benefits would have increased by \$430,984 or 5.90%. The actual increase is caused by a number of factors, including increased contribution to the defined benefit plan largely due to market experience and change in the interest rate assumption, increased defined contribution plan employer match, increased funding of the actuarially determined OPEB contribution and a spike in Workers Compensation premium cost.

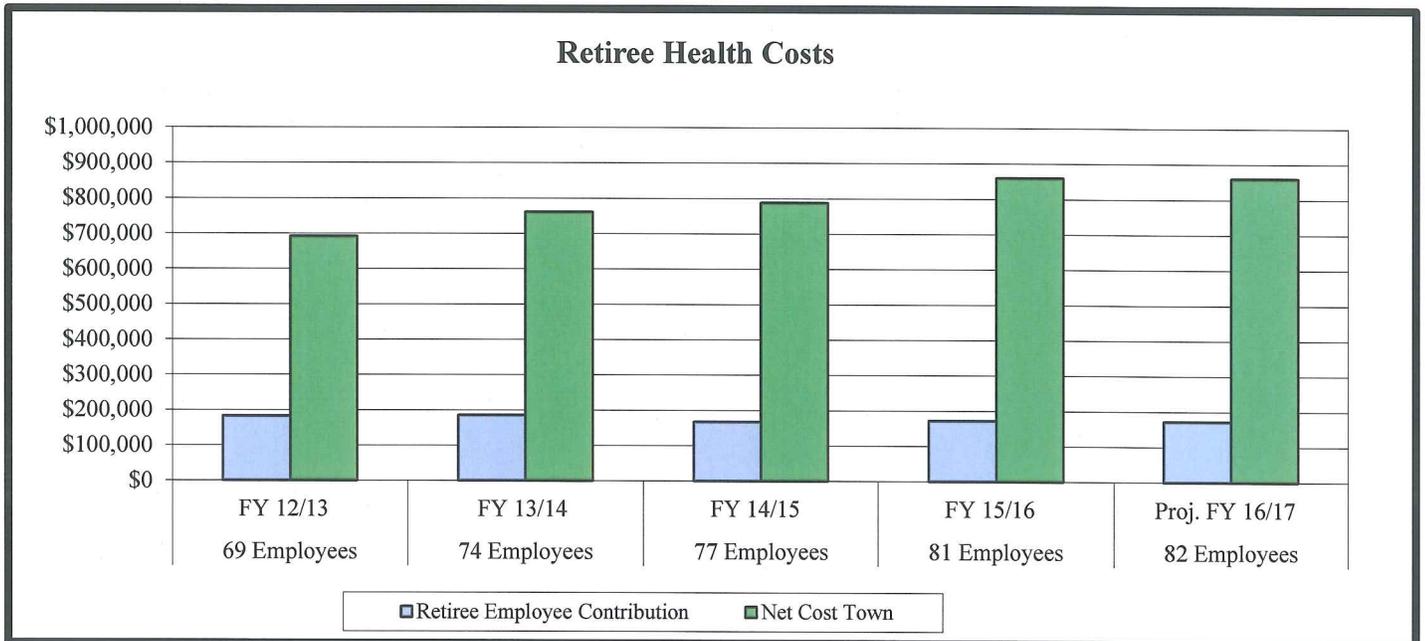

The Town's Workers Compensation premium has increased based on several prior lost-time incidents. The Town's overall Workers' Compensation remains low compared to other Municipalities, as pro-active risk management administration and employee safety practiced by Town employees have had a beneficial impact and a change in insurance carriers has been effectuated mitigating future spikes in premium.

Retiree Health (\$1,541,656) is accounted for in the following manner:

1. \$650,000 is for a portion of the actuarially determined contribution of \$875,000 by the General Fund and Sewer Fund to the Post-Retirement Medical Benefit Trust Fund. The balance of \$225,000 is funded from the fund balance assigned to OPEB.
2. \$891,656 is budgeted for the Town's contribution for current retiree health costs. In fiscal year 2015/2016, \$859,878 was budgeted.
