

## \*PUBLIC NOTICE\*

The Town of Avon's Huckleberry Hill Recreation Area is an actively managed multi-use area. The Forest Management Plan prepared by the forest management consulting firm Ferrucci & Walicki, LLC in 2009 recommends the periodic harvesting of trees as part of such management. Trees are harvested to promote overall forest health, enhance wildlife habitat, improve resiliency, and to produce forest products.

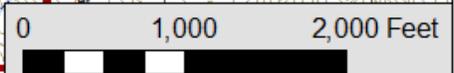

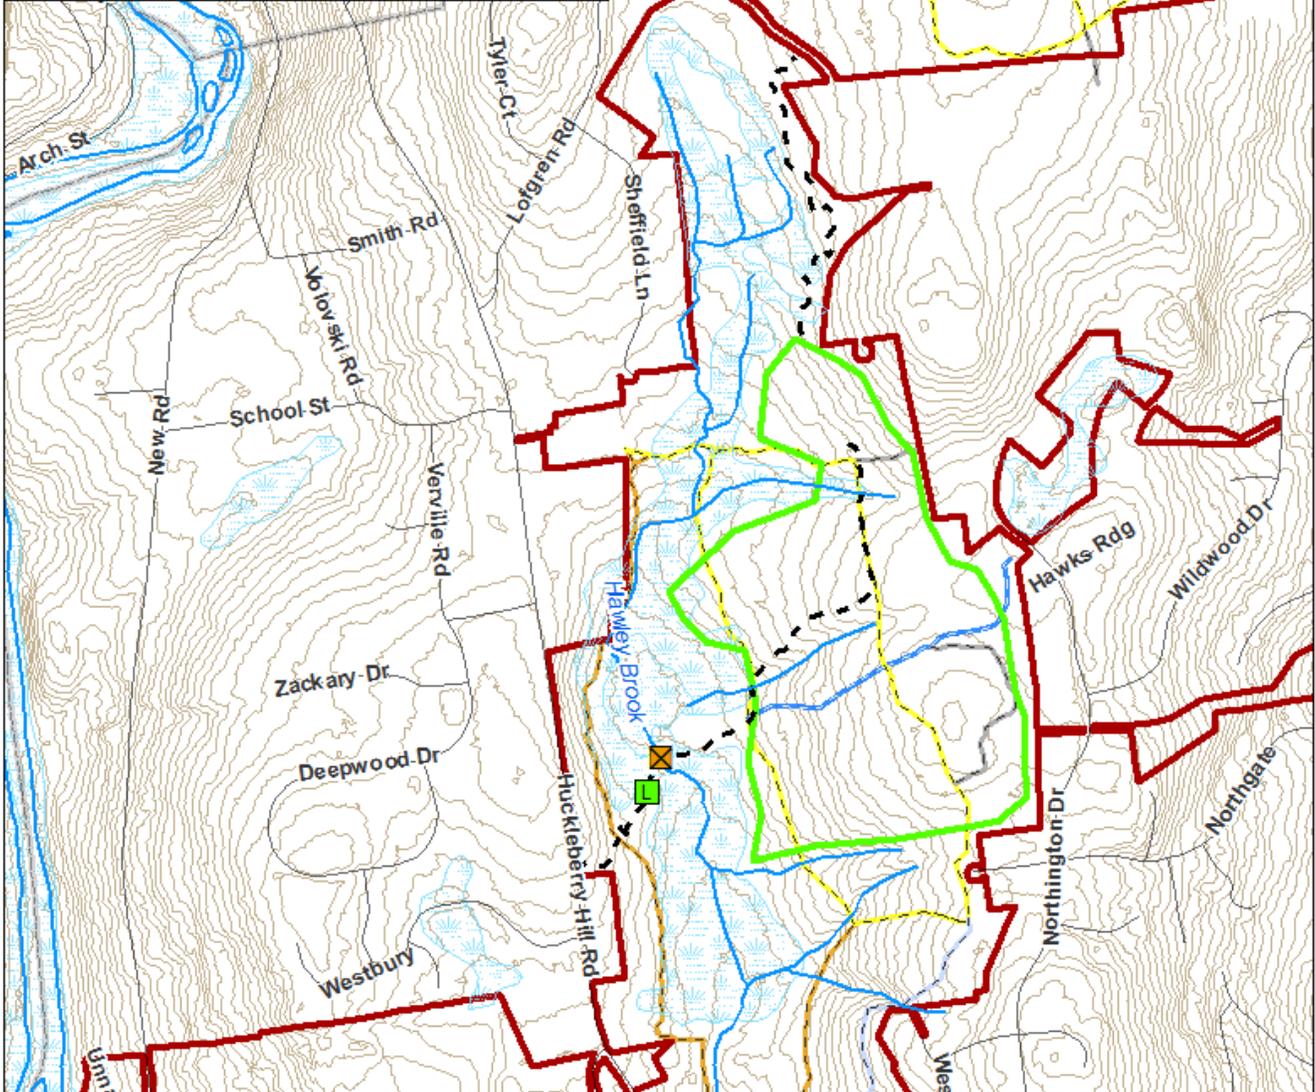

In the winter of 2016 management activities were begun. Due to a lack of appropriate ground conditions, use of equipment in the area has been temporarily halted. This is being done to limit potential disturbance to the site during wet spring and early summer months. When ground conditions become more appropriate, activities will resume.

For more information on this project, please contact Eric Hansen, Forester with Ferrucci & Walicki, LLC at (860) 349-7007 or [fw@fwforesters.com](mailto:fw@fwforesters.com).

Additionally, the Forest Management Plan for this property is posted on the town's website; [www.avonct.gov](http://www.avonct.gov).

*\*The Town of Avon is proud to hold the designation of being enrolled in the American Tree Farm System. The Town has been actively managing this and other Town-owned properties for multiple uses since the 1980s.*
