RE: School Street Low Pressure Sanitary Sewer Update Letter to Residents

Dear Resident,

Town of Avon Engineering Department would like to provide an update for the above-referenced project. Town staff will be providing construction layout for the contractor between the dates of 9/25-9/29. The layout will provide location for the main line sewer located in the street as well as the lateral stub locations for each residential parcel. Many of you have met with Matt Brown and discussed the location of your lateral stub.

Paganelli Construction, the selected contractor for the project, will begin by saw cutting the road in the areas where the main line and lateral stubs are located between 10/2 and 10/06. The purpose of the saw cutting is to minimize the pavement disturbance for the project.

Paganelli will begin to mobilize equipment and materials starting 10/9 and will begin construction approximately 10/16. The project is expected to take 3 to 4 weeks. Please note that, as with any construction project, these time frames are subject to change - weather being the primary reason.

Due to the high cost of mailings, additional updates will only be posted on the Town's website at the following web address: <http://www.avonct.gov/engineering-sewer-and-gis-department/pages/projects>

We again appreciate your cooperation and patience and if there are any questions and or concerns regarding the project please contact myself or the Engineering office between the hours of 8:30 am - 4:30 pm, Monday thru Friday.

Sincerely,

Tim Foster
Superintendent of Sanitary Sewers
860-409-4324 (Direct)
860-409-4322 (Engineering Office)
