

Possible Mainline Sewer Extension Survey Results Summary Table
Data as of February 28, 2022

Neighborhood	Street	Number of Possible Responses	Number of Responses	Number Strongly In Favor	Number Generally in Favor	Number Generally Opposed	Number Strongly Opposed	Approximate Length of Sewer (ft)	Very Rough Cost Estimate (*)	Estimated Benefit Assessment Per Resident Range (*)	
Stony Corners Area	Stony Corners	11	5	3	2	0	0	1100	\$ 220,000	\$23,000 to \$27,600	
	Stony Corners Circle	22	10	5	1	1	3	2690	\$ 538,000		
	Total	33	15	8	3	1	3	3790	\$ 758,000		
	Percentage of Responses			53.3%	20.0%	6.7%	20.0%				
				73.3%		26.7%					
Carriage / Highwood / Candlewood	Carriage Drive	28	12	4	3	0	5	2380	\$ 357,000	\$13,600 to \$16,320	
	Highwood Drive	15	7	2	3	1	1	1500	\$ 225,000		
	Highwood Circle	3	2	0	2	0	0	265	\$ 39,750		
	Candlewood Lane	9	5	2	0	1	2	800	\$ 120,000		
	Brookmoor	2	1	0	0	1	0	240	\$ 36,000		
	Total	57	27	8	8	3	8	5185	\$ 777,750		
	Percentage of Responses			29.6%	29.6%	11.1%	29.6%				
				59.3%		40.7%					
Timber Lane	Timber Lane	12	11	6	4	1	0	925	\$ 185,000	\$15,400 to \$18,480	
	Percentage of Responses			54.5%	36.4%	9.1%	0.0%				
				90.9%		9.1%					

(*) These estimates are based on \$200/foot of mainline gravity sewer and \$150/ft of low pressure sewer. The lengths are also estimated and subject to change at the point of design. The high range number is 120% of the low range number.
