Subject: [External] #4 Vermillion Drive - Avon IWC Appl. #767 - Request for Extension to Open Public Hearing

Follow Up Flag: Follow up
Flag Status: Flagged

John: Hello,

As requested, I am writing on behalf of Michelle and Anthony Angeloni (applicants) concerning Inland Wetlands application #767 for #4 Vermillion Drive in Avon.

The public hearing for this application was scheduled to open on November 16, 2020. Unfortunately it has taken the surveyor longer than expected to locate the new wetland flags and provide additional topography of the site (as requested by the IWC and yourself). However, as of today this survey work will be complete and we are back on track, but some additional time is needed to complete the final plans.

Therefore, the applicants would like to request an extension of the time period in which to open the public hearing, and they grant permission for this extension (for as many days as necessary to extend the opening of the public hearing from November 16th to a meeting of the Avon Inland Wetlands Commission to be held in December, 2020.

Please contact me with any questions, and thank you for your consideration in this matter.

Sincerely,

David F. Whiney, PE
