

14 July, 2020

Good Afternoon All,

As I have shared in recent communications, the district's Reopening Task Force, including the committees for Operations and Teaching and Learning, have worked over the past several weeks to dissect the guidance from the Connecticut State Department of Education regarding the reopening of schools.

In addition, these committees have worked to identify how the requirements and guidance from the state can be implemented within our schools. Their work has helped us develop the "APS Blueprint for Reopening." A large portion of this plan relies on a series of checklists, which outline actionable steps that the district will take to successfully open schools for all students and staff in the fall.

As we work to finalize this section of the document, we are soliciting your feedback. Your comments, questions, and concerns will influence the specific action steps in the checklists. Additionally, your feedback will help to inform the more detailed plans that will evolve as action steps are completed.

[APS Blueprint for Reopening Checklist](#)

[APS Blueprint for Reopening Checklist Feedback Survey](#)

We ask that you please respond to the survey by noon on Tuesday, July 21st and appreciate your time and partnership in this important endeavor.

Sincerely,

*Bridget H. Carnemolla*

Bridget H. Carnemolla, Ed.D.  
Superintendent of Schools
